

General Data

Article No.	32317xxx
Codice	HTC 150 - 2000 W individual
Product status	● Attivo

Electric Parameters

Ignition voltage	3,0 - 4,5
------------------	-----------

Light Application Parameters

Type of UV radiation	UV-A
----------------------	------

Specification

Burning position	Random
Lamp shape	Tube, double-ended
Base	Other

Notes on Operation

Burning position	Random
Generating ozone	No
Suitable for air disinfection	No
Suitable for water disinfection	No

Notes

High-pressure UV lamp

HTC 150 to 2000 W

Radium

Your specific high-pressure UV lamp (UV-C). Our experts will find the optimal lamp for your application!

Please, refer to www.radium.de/recycling for notes on disposal of burned-out lamps as well as lamp breakage.

The field 'info about service life' contains the frame conditions according to standards based on which the specific service life has been determined. So, for example, "12B50, 50Hz" means that the mean service life (B50) has been determined with a 12h switching cycle at mains (frequency 50Hz), "3B50, HF" is based on a 3h switching cycle at electronic control gear (high frequency).

High-pressure UV lamp

HTC 150 to 2000 W

Radium

General notes

The technical design data in accordance with DIN and IEC. The producer does not take any responsibility for damage to persons or property in case of unsuitable operation or handling of the product. Operating data and dimensions are valid within the usual tolerances. Related lamp types (different bases, mains voltages) may be available on request. Sale and delivery are effected in accordance with the Radium Terms of Delivery and Payment valid on the day of conclusion of contract. Packing units offer economical advantages to the purchase and logistic department. Please match your quantity volume accordingly. For orders of a minimum quantity (clefts) with a lamp model the amount lower than the volume of each packaging unit, we will invoice 10 % additional charge per lamp type. Technical changes and terms of delivery are reserved. Manipulation of any kind to packaging or product is not permissible as this will violate Radium brand rights. Furthermore, technical properties of the product can change to its disadvantage or even destruction. Therefore, Radium cannot be responsible for consequential damages.
